

## Structure

The Coalition consists of both **Family Caregiver Members** and **Organization Members**. A steering committee of seven non-profit organization members designated because of the support that they provide to family caregivers, and a family caregiver representative, make up the **Steering Committee**. The specific representative of each organization may vary, but the seven organizations remain consistent.

The Steering Committee is the decision making body, responsible for accomplishing the mission of the Coalition. It also directs the implementation of the vision and targeted goals. This is accomplished through cooperative ventures with other family caregiver and organization members and non-members in the community that share a common goal to support family caregivers.

There are no membership dues. Programs and initiatives are sustained through shared skills and resources of the members. Non-members, family caregivers and organization members are welcome to join in efforts to promote a variety of initiatives to assist family caregivers.
