Sheboyan County COVID19 Status Update

DATE: 3/19/2020, 2:00pm CST

***We will be providing these updates daily by 3pm.*

Current Situation Update*

Wisconsin Confirmed Case Count	155
Sheboyan County Confirmed Case Count	6

**Confirmed Case Counts as of 2pm 3/19/2020*

Case Updates and Monitoring:

Wisconsin State Cases:

- Information on most up to date case counts statewide can be found [here](#).
- The state of WI is now experiencing community spread.
- State and local health departments are conducting contact investigations with those who may have been exposed to the confirmed cases.
- Exposed individuals are being monitored for signs and symptoms of illness.

Sheboyan Case Updates:

- Sheboyan County currently has 6 confirmed cases of COVID-19
- 3 confirmed cases got the virus from traveling internationally. 3 additional cases are known contacts to an existing positive case.
- Sheboyan County Division of Public Health is in regular communication with healthcare providers and will provide updates should Sheboyan County case counts begin to change.
- Sheboyan County DPH works closely with the State of WI DHS in conjunction with the CDC to ensure appropriate measures are in place to prepare our community for COVID-19 should we see additional cases.

Public Health Updates:

- Public Health is identifying and contacting anyone who has been in close contact with a person who has COVID-19. These people are asked to quarantine themselves for 14 days from their exposure and will be monitored for fever and respiratory symptoms.

Health and Human Services Department*

Health Systems Updates:

- **HSHS St. Nicholas Hospital and Prevea Health:**
 - Testing requires authorization.
 - Please do NOT show up at the HSHS St. Nicholas Hospital Emergency Department or Prevea Health centers to be tested for novel coronavirus (COVID-19).
 - Only those who are critically ill should come to the HSHS St. Nicholas Hospital Emergency Department.
 - Please utilize Prevea Virtual Care's free COVID-19 assessment to determine if you need to be tested for COVID-19: prevea.com/virtualcare
- **Advocate Aurora Health:**
 - Testing requires authorization.
 - Call 866-443-2584 if you think you've been exposed to COVID-19, are experiencing symptoms or need to learn more about testing.
 - From there, you may be referred to a testing location.
- **Ascension Medical Group:**
 - Marsho Clinic and Ascension Medical Group in Plymouth are not offering Coronavirus testing at this time.
 - Patients are being screened and triaged via a phone call.
 - Our clinic phone numbers are 920-457-4438 in Sheboygan and 920-892-4311 in Plymouth.
- **Lakeshore Community Health Care Sheboygan:**
 - [Lakeshore Community Health Care \(LCHC\)](#) is rescheduling all non-essential appointments, including wellness medical visits, routine dental care and mental health therapy sessions.
 - Emergency dental care and essential medical and mental health services will continue uninterrupted, call 920-783-6633 to schedule an appointment.
 - Symptomatic patients are asked to call before coming to the clinic.
 - Everyone entering LCHC's facilities will have their temperature checked and be asked screening questions per the CDC's guidelines.
 - The organization is not currently capable of testing for COVID-19.
- **Health and Human Services:**
 - Health and Human Services is NOT providing testing.
 - Do not come to Health and Human Services if you are ill.
- **Sheboygan Pediatrics Association:**
 - All calls are being screened before an appointment is made.
 - Anyone that has travelled or had direct contact with a person with a confirmed case of COVID-19, has a fever or cough is being asked to stay home.

SHEBOYGAN COUNTY

*Division of Public Health
Health and Human Services Department*

- We continue to see well child visits to keep patients up to date with vaccines.
- Sheboygan Pediatrics is not providing COVID19 testing.
- The clinic phone number is 920-458-3331.

Emergency Response Update:

- EMS does not conduct COVID-19 testing.
- EMS should be reserved for those who are critically ill. It is not appropriate to request EMS to transport you to or from a testing site.

Local Joint Response Updates:

- Public Health and Emergency Management has convened a panel of key health care providers and other stakeholders from the city and county to ensure a coordinated multi-agency response as the situation evolves.
- Providing resources and consultation to schools, long term care and businesses to help prepare the community to respond to possible COVID-19 concerns.

Schools, Businesses and Long-Term Care Updates:

- Please refer to the specific school district/system, long term care facility, business and/or organization's website and contact information for the most up to date information.

- [Effective Thursday, March 19, 2020 at 8:00 AM Governor Tony Evers directs Child Care Centers may not operate with more than 10 staff present at a time and may not operate with more than 50 children present at a time.](#)

SHEBOYGAN COUNTY

*Division of Public Health
Health and Human Services Department*

- Sheboygan County Division of Public Health is working to compile a list of community closures, restrictions, cancelations, etc. You can find a [list of our communities closures, restrictions and cancelations here](#).
- If your organization has closures, restrictions or cancelations to report or share with the community please email the public health email at public.health@sheboygancounty.com and we will post on our county website as updates come in.

Recommended Action for Residents:

PREVENTION: To prevent illness and spread—Residents should follow simple steps to avoid getting sick, including--

- Wash your hands
- Cover your coughs and sneezes
- Avoid touching your face
- Stay home when you are sick
- Practice vigilant social distancing

SOCIAL DISTANCING:

- [Governor Tony Evers, has ordered a statewide moratorium on mass gatherings of 10 or more people to prevent the spread of COVID-19](#)
 - All gatherings that bring together or are likely to bring together less than 10 people in a single room or confined or enclosed space at the same time must:
 - Preserve social distancing of 6 feet between people.
 - Follow all other public health recommendations issued by the Wisconsin Department of Health Services and Centers for Disease Control.
 - [Governor Evers Mass Gathering Restriction FAQs](#)
- Current recommendations related to social distancing and gatherings can be found [at this link](#) and include:
 - Stay home when you can
 - Stay at least 6 feet away from others
 - Avoid travel
 - Avoid gatherings of 10 or more people
 - Avoid contact with people that are sick
 - Stay home if you are sick

IF YOU ARE ILL:

- If you have a fever and/or acute respiratory symptoms (cough, shortness of breath, fever), you should self-quarantine for 14 days after illness onset, and 72 hours without symptoms.
- Individuals should seek care if their symptoms become severe.
- Individuals should call ahead to their health provider when possible.

SHEBOYGAN COUNTY

*Division of Public Health
Health and Human Services Department*

- Individuals with symptoms who are not able to be tested should isolate themselves from household and intimate contacts as much as possible.

WI State Update on Testing:

- The Wisconsin Department of Health Services issued [new guidance regarding testing](#) on March 17.
- With an increased demand for COVID-19 tests and the limited capacity of testing, the Wisconsin State Laboratory of Hygiene (WSLH) and the Milwaukee Health Department Laboratory (MHDL) will prioritize testing for high priority specimens which includes tier 1 and tier 2 individuals.
- At this time WSLH and MHDL are directing local healthcare partners to try to identify other laboratories that can test tier 3 and tier 4 individuals specimens'.
- **Statement from WI State Lab:** "We will be prioritizing testing for COVID-19 because of a shortage of ingredients needed to run the tests. Many states across the country are grappling with this same problem. We have been working with partners in the private sector and public universities to try to get the ingredients needed to run these tests. We are working with our partners to ensure that we can continue to run testing."

Travel Considerations:

- [CDC has released new information in regards to domestic and international travelers.](#)
- At this time, all travelers returning to Wisconsin from domestic or international locations should monitor their health and practice social distancing.
- If you are returning from a country with a [Level 3 Travel Health Notice](#), it is recommended that you complete a 14-day self-quarantine and monitor your symptoms and you should contact your healthcare provider by phone first if you become symptomatic.
