**Confirmed Case Counts as of 2pm 4/01/2020*

Case Updates and Monitoring:

Wisconsin State Cases:

- Information on most up to date case counts statewide can be found [here](#).

****Sheboyan Case Updates:**

- Sheboyan County currently has 15 confirmed cases of COVID-19. Of those, 7 cases have recovered and are no longer ill. Of the active cases, 1 is currently hospitalized. 1 confirmed positive is deceased.
- Public Health is currently working on a contact investigation associated with Sunny Ridge Nursing & Rehabilitation Center. [See the press release here](#).
- Our cases have been affiliated with international travel, domestic travel and community transmission.
- Active cases** are defined as those individuals who are currently ill and requiring medical care or are in isolation.
- Recovered cases** are defined as confirmed cases where at least 3 days/72 hours have passed since recovery, defined as resolution of fever without the use of fever-reducing medications and improvement in respiratory symptoms, **AND** at least 7 days have passed since symptoms first appeared.
- Negative Tests** are defined as a COVID-19 test with a negative result that was reported to Public Health. For information on testing, see WI testing priorities and procedures section.

Additional Sheboygan County Case Information:

We have been receiving inquiries about the data we are able to release within Sheboygan County. The Sheboygan County Division of Public Health takes the wellbeing of the community very seriously and works diligently to share the information needed to protect the health of the public. Public Health has a responsibility to protect the privacy and confidentiality of individuals and must be thoughtful about how data is shared because even aggregated data can be linked to individuals when small numbers and rare demographic features are involved. We remain committed to providing the information necessary to keep Sheboygan County safe.

At this time, we are planning to make available aggregate data on age groups of confirmed cases.

There are no current plans to release additional details about cases to protect the privacy and confidentiality of those community members who are sick with COVID-19. This decision was made in consultation with Sheboygan County corporation counsel, it is in alignment with the Sheboygan County HIPAA Compliance Policy #P33 and is also supported by the [American Public Health Association Code of Ethics](#).

Highlights of what is NEW in Today's Update

- Sheboygan Case Counts
- Additional County Case Information-- Age Breakdown Chart
- Key Community Prevention Message
- Long Term Care Facility Guidance and Update
- Additional Resources
 - Sheboygan County COVID-19 Community Resources
 - Sheboygan County COVID-19 Recovery Meetings & Support Resources

*Updated information is denoted by a ** prior to the bullet in the report below*

TODAY'S KEY COMMUNITY PREVENTION MESSAGING:

Do you think you need to see a doctor? Contact your physician or complete an [online health screening assessment](#), and a licensed health practitioner will contact you.

PPE--Wisconsinites can now [donate or sell large quantities](#) of personal protective equipment (PPE) to help Wisconsin communities that need it the most.

- The good news is that, due to the generosity of hundreds of Wisconsin businesses, non-profits, and even individuals, we've been able to start distributing donated PPE into our local communities.
- But we still need more.
- We need PPE and other supplies in order to increase our capacity to test tens of thousands of Wisconsinites, isolate and treat those who are infected, and do our best to contain the spread of COVID-19.

YOU ARE SAFER AT HOME.

Assuming that we are all implementing Safer at Home well, it will likely be several weeks before we are able to start to see results. And that is because of the lag time between infection, symptom onset, and testing result. So, the numbers you're seeing today and in the near term are people who were infected before we started Safer at Home. So, please don't get discouraged; we need to remain vigilant and continue to do everything we can together to stop the spread of COVID-19. Keeping our healthcare system from becoming overwhelmed so it can care for us during this epidemic is our number one priority.

SHEBOYGAN COUNTY

*Division of Public Health
Health and Human Services Department*

You are not alone. We are in this together.

The COVID-19 pandemic, and the resulting changes to our lifestyles, can make anyone anxious or even depressed. Do not hesitate to ask for help if you're feeling overwhelmed. Call 800-985-5990 to speak to a trained crisis counselor or text TalkWithUS to 66747.

While you may not be able to be in the same room with your support system, you can still call or video chat with them.

With all of us doing our parts, staying safer at home, we will get through this.

Sheboygan County Government Update:

- Following suit with the State and Federal Government, on March 17th, 2020 the Sheboygan County Board of Supervisors unanimously passed a resolution declaring a Sheboygan County [State of Emergency](#). This empowers the Sheboygan County Board Chairman and County Administrator to allocate resources as needed in response to this public health crisis.
- Sheboygan County Government will remain open with limited access to provide essential services. For more information on a specific area of responsibility and county department, please see the procedures, visitation restrictions and guidance visit: <https://www.sheboygancounty.com/home/showdocument?id=12227>

Public Health Updates:

- Public Health is identifying and contacting anyone who has been in close contact with a person who has COVID-19. These people are asked to quarantine themselves for 14 days from their exposure and will be monitored for fever and respiratory symptoms.

Drive-Through Testing:

Drive-through testing sites are currently NOT open to the public and are ONLY for patients who have a provider testing order.

- **Prevea/HSHS St. Nicholas :**
 - Prevea drive through COVID-19 testing is now available at the Prevea St. Nicholas Medical Office Building located on the campus of HSHS St. Nicholas Hospital.
 - This is **NOT a public testing site** and is **ONLY** for those patients who have a *provider testing order*.
- **Ascension Medical Group:**
 - Drive through testing is now available at numerous locations around the state, **ONLY upon the order of a physician**.

- [Executive Order 72, Relating to Declaring a Health Emergency in Response to the COVID-19 Coronavirus](#) — March 12, 2020

Recommended Action for Residents:

SOCIAL DISTANCING:

- [Governor Tony Evers, has ordered a statewide moratorium on mass gatherings of 10 or more people to prevent the spread of COVID-19](#)
 - All gatherings that bring together or are likely to bring together less than 10 people in a single room or confined or enclosed space at the same time must:
 - Preserve social distancing of 6 feet between people.
 - Wash hands with soap and water for at least 20 seconds as frequently as possible
 - Cover coughs or sneezes (into the sleeve or elbow, not hands)
 - Regularly clean high-touch surfaces
 - Not shake hands
 - Follow all other public health recommendations issued by the Wisconsin Department of Health Services and Centers for Disease Control.

IF YOU ARE ILL:

- If you have a fever and/or acute respiratory symptoms (cough, shortness of breath, fever), you should self-quarantine for 14 days after illness onset, and 72 hours without symptoms.
- Individuals should seek care if their symptoms become severe.
- Individuals should call ahead to their health provider when possible.
- Individuals with symptoms who are not able to be tested should isolate themselves from household and intimate contacts as much as possible.

Health and Human Services Department*

WI State Update on Testing:

- The Wisconsin Department of Health Services issued [new guidance regarding testing](#) on March 27.
- With an increased demand for COVID-19 tests and the limited capacity of testing, the Wisconsin State Laboratory of Hygiene (WSLH) and the Milwaukee Health Department Laboratory (MHDL) will prioritize testing for high priority specimens which includes tier 1 and tier 2 individuals.
- At this time WSLH and MHDL are directing local healthcare partners to try to identify other laboratories that can test tier 3 and tier 4 individuals specimens'.
- **Statement from WI State Lab:** "We will be prioritizing testing for COVID-19 because of a shortage of ingredients needed to run the tests. Many states across the country are grappling with this same problem. We have been working with partners in the private sector and public universities to try to get the ingredients needed to run these tests. We are working with our partners to ensure that we can continue to run testing."

Travel Considerations:

- [CDC has released new information in regards to domestic and international travelers.](#)
- At this time, all travelers returning to Wisconsin from domestic or international locations should monitor their health and practice social distancing.
