

About Us:

The Coalition was established on April 20, 2010 at a Strategic Planning Meeting with input from family caregivers, and local non-profit organizations that serve family caregivers. A grant from the [Greater Wisconsin Agency on Aging Resources](#) (GWAAR) initiated this process as part of a plan to develop coalitions to support family caregivers in counties all over the state of Wisconsin. GWAAR continues to provide resources and support to the Coalition.

Caring for *Family Caregivers*.....

The Coalition promotes appreciation of family caregivers and provides a variety of education and outreach activities through three key programs:

- [Caregivers Connect](#)
- [Caregiving Counts](#)
- [Care for Caregivers](#)

The [Family Caregiver Survey](#) provides an on-going assessment of family caregiver needs. New goals and initiatives are based on assessment information.
